

ACKNOWLEDGMENT OF COMPLETION

Tetra Tech Inc.

11021929

Region 4 Superfund Technical Assessment and Response Team (START) III Contract No. EP-W-05-054

Project Name: Kerr McGee

TDD Number: TTEMI-05-003-0051

Cost Center: CERCLA

AOC Number: AOC_TTEMI-05-003-0051

Response Type: Assessment/Inspection Activities

Original Authorized Budget: \$40,971.00

Actuals Incurred: \$40,971.00

Site Manager: Davis, Shanna

EPA Task Monitor: Schuster, Barbara

POP Start Date: 08/26/08

Completion Date: 12/28/09

Brief
Project
Description

The Kerr-McGee Chemical LLC (Kerr McGee) site is located in Jacksonville, Duval County, Florida. From 1919 to 1970, various predecessors conducted pesticide and herbicide formulation operations and fertilizer and sulfuric acid manufacturing on the property. Kerr McGee purchased the property in 1970 and operated two plants for the formulation, blending, and packaging of pesticides, herbicides, and fertilizers. Kerr McGee also produced sulfuric acid and operated a steel drum reconditioning facility. Kerr McGee was closed in 1978 and all buildings on the property have been demolished.

Tetra Tech developed a preliminary scoring strategy (CLIN 4101) for the site using the hazard ranking system (HRS) and prepared an HRS documentation package (CLIN 4102) for proposed listing on the National Priorities List (NPL) based on the HRS score and the NPL ranking criteria.

Task Order:

☐ (05-001) ER/Response☐ (05-002) Oil Spill & SPCC0A☒ (05-003) Assessment/Inspection Activities☐ (05-004) Preparedness & Prevention☐ (05-005) Counter Terrorism/Federal Disaster☐ (05-006) Technical Support, Data Management, Training
